Improvements In Squaw Planned In New State Action

27 Year Contract Is Given To Operate Facilities In Valley

(By HENRY MAC ARTHUR)

SACRAMENTO—(CNS) — From all indications, the state has solved at least some of its problems in connection with the operation of its property in Squaw Valley with the execution of a contract for operation of facilities at the state park for the next 27 years.

The contract is with William A. Newsom, Jr., formerly a San Francisco contractor, and since June 1, 1959, a member of the California Unemployment Appeals Board. Newsom was appointed to the board by Governor Edmund G. Brown to succeed the late Glenn Walls. His term expired in May, 1960, and he previously had advised the governor he did not wish reappointment, but would serve until a successor was found.

With Newsom in the Squaw Valley venture is John Pelosi, a wholesale druggist of San Francisco. Newsom has had experience in resort operations, at Colonial Village, Guerneville on the Russian River.

OPERATE FACILITIES

Newsom and Pelosi will operate all housing, the skating rinks, feeding, parking and related activities on state property. The contract calls for their maintenance of all building interiors, with the state to assume costs of outside building maintenance.

The contract calls for reimbursement to the state on a scale of percentages of gross revenue, ranging from one per cent on vending machines up to 40 per cent on the parking lot, which the state will construct to accommodate some 1,700 automobiles. After seven years, the percentages will be increased. How much the state will receive per year is still a matter of conjecture, according to Charles DeTurk, chief of the state division of beaches and parks. but he said his guess to start with is approximately $100,000 annually.

California has approximately $9,000,000 invested in Squaw Valley as a result of the winter Olympic Games held there last winter.

While anticipating some return to be deposited in the parks and parkway fund, which advanced most of the nine million, the state at the same time in cooperation

Building Survey In County To Start As Contract Is Let

Truckee Building In Plans For Development In Current Study

The Nevada County Board of Supervisors this week entered into a contract with Malcolm O. Mau and Wesley J. Barnum, Sacramento engineers, for a building survey in the county. The cost of the survey, according to Supervisor H. G. Loehr of Truckee will be $6,500.

The service will include a complete survey of the building needs of the county, including a proposed new county building and jail for the Truckee area.

After the survey is finished, the tentative drawings and plans will be presented to the supervisors and the planning commission for discussion. The matter is strictly in the planning stage and does not necessarily mean that the county will proceed with building plans, although the need is quite apparent, Loehr explained.

SUNBEAMS

By WALTER M. BARRETT

Those broad, white stripes painted across the highway are designed and maintained as pedestrian crossings, but you'd be surprised how few drivers recognize this fact. It is not at all unusual to see from two to ten cars dash over the area while the stalled pedestrian carefully watches for a chance to dodge across the street. This seems to be especially true of children. We watched three small youngsters standing on a cross-walk the other day while seven cars dashed by, never even checking their speed. One of these was a car which should certainly have stopped as the driver was well aware of the laws governing traffic control. We don't believe cars should hold up vehicular traffic while some pedestrian stands beside the walk with no intent of crossing until the road is clear of cars, but we do think the pedestrian is entitled to the courtesy of a chance to cross if he so desires without fear of being run down by a speeding car.

Recently unusually warm weather and low humidity have greatly increased the fire dangers in the forests and more than the usual care by those frequenting the area is urged. Thus far during the season, this area has been spared any major fire, but only continued caution by everyone can maintain this record. The forest service asks that all rules and laws be strictly observed and warns that violations will be prosecuted fully.

SCHOOL DISTRICT IS PLANNING FOR WELL

Holding that it is impossible for Truckee Public Utility District to furnish enough water to complete turfing the new athletic field, the governing board of the Tahoe Truckee Unified School District has recommended that the district consider installing a well. Architect Gordon Stafford has been asked to supply specifications for such a well and report to the board.

Robert Beaverson, bus driver, appeared before the board requesting a change in the salary structure for drivers, adding two steps to the present schedule. The matter was held in abeyance pending a review of the finances of the district.

Max Williamson, chairman of the curriculum advisory committee, presented the groups letter, listing 11 recommendations for the improvement of the high school curriculum.

The calendar for the 1960-61 school year was approved by the board.

RATTLESNAKE KILLED IN BOCA HOME YARD

The Harold Pabst family at Boca had an unwelcome visitor last Thursday when a 36-inch rattlesnake invaded their yard. It was first seen and heard by Buddy Clark, age 10 of Reno, grandson of the Pabsts who immediately called his grandfather.

After the snake was shot, 9 buttons were found on the rattle, it was then skinned and mounted as a memento for young Clark.

Mrs. Pabst said that on Monday of this week the temperature was 97 degrees, the hottest it has been during the more than 20 years they have lived at Boca.

Five Local Girls To Compete In Maid Of Nevada Contest

Rose Will Be Judge When Contest Will Decide Maid Of County

By VIRGINIA O'BEAR

Our end of Nevada County will be well represented on July 30 when five pretty girls will appear at the Veterans Memorial Hall in Grass Valley for the Maid of California contest.

Kenneth Adams was up from Grass Valley last week and was pleased to receive the names of Renee Hall, LaVonne Lund, Rosalie Frates, Donna Barnes and Shirley Smith. At that time he asked if I could find a reliable person to act as judge in the contest from our end of the county so after contacting Zeph Rose, he agreed to be a judge along with two judges from Nevada City and two judges from Grass Valley. Looks as though our end of the county is being recognized after all. Adams is a member of the Junior Chamber of Commerce in Grass Valley, being in charge of the contest.

The contest starts at 7:30 at the Veterans Memorial Hall and the girls will appear with other contestants from Nevada County. The winner will then compete in August for the state fair Maid of California contest and there will be prizes.

Local Officers Will Crack Down Hard On Vandals Here

Two acts of vandalism occurred during the weekend, according to Chief Deputy Roy Waters of the sheriff's department, which may lead to the arrest of juvenile offenders.

In the first and most serious offense, the water plant of the Truckee Public Utility District on East River Street was entered and the valves turned off. This could have resulted in serious damage to the equipment, valued in excess of $5,000 and could leave the fire department without water in case of a fire.

Water was turned on and left running at the Little League Park on the high school property sometime Sunday evening, resulting in ruining the pitching mound, Waters reported.

Still another frequent violation being investigated by the officers with a threat of arrests is riding bicycles on the sidewalks. This is a continuing and growing danger to pedestrians, Waters declared, and must be discontinued at once.

$2.10 Tax Rate Is Seen For County

NEVADA CITY—Nevada County supervisors adopted a $3,272,657 county budget for the coming year, expected to increase the county base tax rate from $1.89 to $2.10 per $100 of assessed valuation.

The budget was $146,041 over the cost of operating the county during the last fiscal year.

The new tax rate has not been set officially but John T. Trauner, county clerk and auditor, said the 2 cent increase is a strong likelihood.

A major part of the increase, approximately 19 cents, can be attributed to the county hospital.

The budget includes a figure of $100,000 for unappropriated reserve and $150,000 for general reserve.

The general tax levy will bring in more than $800,000 with the balance coming from sales and gasoline tax and other subventions and grants.

One of the largest of the budget items is $716,869 for county roads compared to $668,000 of the previous year.

ANCIENT ITEMS SHOWS LOW WORK SALARY

An item from the Dutch Flat Enquirer of July 16, 1863—97 years ago:

The Dutch Flat and Donner Lake Wagon Road Company have raised the wages of laborers upon the work to $40 per month, and we predict they will not now want for a sufficiency of good hands. Had the wages never been lowered during the winter here there would have been more than they could have found employment for. They have now a large force engaged and are anxious to increase it to five hundred more.

Work Is Started On Four Lanes Over Donner Summit

Equipment Arriving As Big Project Over Donner Gets Started

With giant bulldozers clearing the earth and other heavy-duty rigs being moved onto the site daily, construction has started on the $7,500,000 first-phase of the 10.5 mile four-lane divided freeway on U. S. 40 that will sweep over historic Donner Summit on a completely new alignment beginning about two miles west of Truckee.

According to a state division of highways spokesman at the Marysville district office, the initial contract on the Interstate 80 route calls for heavy excavation and grading on the eastern seven miles of the project from the east end of Donner Lake to West Lakes near the summit peak.

It will also include the Donner Lake undercrossing and connector road which will provide traffic access to the west Donner Lake business and residential area. J. W. Briggs and J. N. Conley of Redding are the prime contractors after their successful low bid last month.

Grading and structures on the remaining 3.5 miles, from West Lakes to Soda Springs, and the surfacing of the total 10.5 miles, will come under future contracts—the next to be advertised for bids in about a year.

Leon Hawkes of Yuba City has been assigned as resident engineer to supervise construction for the division of highways. He heads an engineering staff of 20 men including George W. Hanson of Truckee, assistant resident engineer. Hawkes is a freeway construction veteran having last year served as resident on the completed $5,000,000 U. S. 40 freeway section between Hampshire Rocks to Soda Springs.

The only consideration required by the El-Ta-Ho Shrine Club and Kerak Temple is that a parent or guardian of the child must sign a consent and release both as to any right or action that may accrue to the parent or guardian. A copy of the consent and release may be obtained at Porath's Variety Store, Kings Beach; Jay's Drug Store, Tahoe City; Heller's Variety Store, Truckee. One copy will suffice for family groups. The completed form must be returned to the store not later than July 31.

Traffic Lights Seen As Need at North Tahoe

Sheriff C. W. Young cited a daily traffic count of 8,500 cars during the summer at Crystal Bay to emphaize his statement before the Washoe County commission that automatic traffic signals may have to be installed in the north Lake Tahoe community to keep traffic flowing smoothly.

He pointed out the rapid growth of the area is presenting new problems and pedestrians crossing the highway frequently slow automobile movement and block traffic.

Young's comments were substantiated by a report from the evada Highway Department.

Both Young and the highway department noted efforts of casinos to provide adequate offstreet parking. Young plans to remove a major portion of parking from the front of clubs facing State Route 28.

Northern California and southern Oregon forests produce the bulk of the world's supply of wood for pencils.

AS BEFORE

Last week I spoke of getting a long distance call from what should have been Judy Crillo, telling us about her brother of whom we had not heard from for the past two years. Last week we had the lassie's name as Judge Crillo.

WEATHER

Saturday a. m., cool, 44 degrees, after a real hot evening before. Golfers are sure taking advantage, too.

SICKNESS

We are sorry to hear of the illness of Mrs. Crumb and also Vera Woods, postmaster of Crystal Bay. Both are in the hospital, but we are happy to be told of some improvement in both cases. We are hoping for their recovery and in a hurry, too.

PROBATION

Had James H. Beattie, assistant probation officer up making investigations. There is a definite trend to bear down on juvenile violators and their parents who in lots of cases are responsible for these delinquents driving cars and drinking, etc. It's tough on everyone concerned.

MORE VISITORS

J. L. Cornelius who lived up here a year or so ago was here, intending to move here as soon as he can. He's with the MacBride Realty Co. of Cicolaus, California. Dave Ashton and I have an invitation to hunt on his property, all the pheasant we can take. Two birds?

HEARD FROM NEIGHBORS

Just had a talk with Mrs. Ella Blake and her son, Lloyd. She's doing very well but is unable to return to the lake until doctors orders. Hello to everyone, she says.

NEWCOMER

G. O. Mike Bradley, six years in Crestline in the San Bernardino mountains engaged in the real estate business and also operates a cabin patrol service. Now associated with the M. H. Dodd Co. and plans to be settled here before long. He also becomes a subscriber to the "Sun."

HAPPY

Last night Chef Adamco was bragging of his new job at the Crystal Bay Club.

OLD FRIENDS

Was at the Cal-Neva Lodge last Saturday. In came my old friends Charlie and Mrs. White from Truckee. They said they were there to test the champagne buffet. They sure looked wonderful.

CUSHING IS ORDERED TO REEMPLOY 4 MEN

SQUAW VALLEY—The national labor relations board disclosed it has ordered reinstatement of four employes discharged by the Squaw Valley Development Corporation and Squaw Valley Lodge, operated by Alexander Cushing.

The board said Cushing had discharged the employes before last winter's Olympic Games after they had signed cards in the AFL-CIO International Union of Operating Engineers, Local 3.

The men discharged June 27, 1959, were Dale B. and Fred Arden Gillaspie, brothers, who were rope tow operators and maintenance men; Lilburn Jones, a ski patrolman and ski lift maintenance man, and John Richard Gilbert, employed primarily as a ski lift maintenance man.

William E. Spencer, trial examiner, found "the respondent's statements to employes that it would curtail operations and contract out maintenance work, rather than deal with the union they had designated to represent them, constituted interference, restraint and coercion."

The board ordered the corporation to reimburse the discharged men for any pay losses they suffered, and to post a notice saying it would not interfere with its employes in union labor matters.

WATER CARNIVAL TO BE HELD THIS WEEK AT CHAMBERS PIER

The slalom events will be held on Saturday and the tricks and exhibition on Sunday. All registration closes not later than 10 a. m. Saturday.

Yacht Club officers for 1960 include J. Allen Bray, commodore; Stanley W. Good, Jr., vice commodore; A. R. Westphal, rear admiral; Mike Brown, port captain; and R. Randolph Walker, secretary-treasurer.

The water ski carnival committee is composed of Morlan Visel, chairman; J. Phillip Murphy, Mike Brown, Stanley Good, Ed Irvine, Mrs. J. Phillip Murphy, Mrs. Ralph Peer, Dick Irvine, Bonnie Visel and Louise M. Good. Mike Westerberg is in charge of publicity and R. Randolph Walker will be the announcer.

Army PFC Kenneth G. Stanley, son of Mr. and Mrs. Kenneth T. Stanley, Tahoe City, recently departed from the U. S. for Okinawa with the 2nd Airborne Battle Group, 503rd Infantry. The 530rd, formerly assigned to the 82nd Airborne Division at Fort Bragg, North Carolina, will become part of the 25th Infantry Division, U. S. Army Pacific's strategic reserve force. Stanley, a military policeman in the infantry's support company, entered the army in June, 1959 and received basic training at Fort Ord. The 19-year-old soldier is a 1958 graduate of Carpinteria High School and attended the University of Oregon in Eugene. (U. S. Army Photo)

JEEPS RETURN AFTER TRIP TO LAKE TAHOE

AUBURN — Eighty-five jeeps carrying more than 300 persons returned here Sunday night from the 10th annual jeep trek from Auburn to Lake Tahoe via Wentworth Springs, El Dorado County.

The travelers left Auburn in two groups Saturday and united at Wentworth Springs for an overnight stay. Sunday morning, they moved through Desolation Valley, across the Rubicon river and finally arrived at Chambers Lodge, Lake Tahoe, late in the afternoon.

The group had dinner in the Donner Summit Lodge Sunday night before returning home.

The trek was sponsored by the Auburn Jeep Club and the Auburn Area Chamber of Commerce.

STRIKES & SPARES

BY JOE WILMAN

FOR THE THIRD STEP, BUILD BODY MOMENTUM

At the completion of the third step in the four-step approach, the arm reaches the top of the backswing. Note in today's illustration how the ball isn't brought back any higher than the shoulder.

I know that my friend, "Powerhouse Paul," and a few other muscle men like to bring the backswing up higher. But, for best results, don't let the ball get above shoulder height.

This third step is a normal stride, slightly longer than the second step. If you begin with the short, slow first step and increase the length and tempo a bit on the second, your body momentum should be built up for this third step. The next time you watch the stars bowl on television, see how easily and gradually they build up their momentum. Tom Hennessey of St. Louis, for example, has smoothest footwork you're likely to see.

Note in the illustration how the the bowler's hips and shoulders continue to face the target. The eyes, too, keep steady on the target.

Follow the example of this bowler and watch the strikes start piling up.

There's quite a rivalry in sweat shirts among the small fry at Rubicon Properties beach. Recently Mrs. Pat Ivey and daughter Diane sported new black and white ones from Bowdoin, sent to them by football coach Adam Walsh, one of the famous Four Horsemen on Knute Rockne's Notre Dame team. Walsh is now coaching at Bowdoin in Maine, but was once coach at Santa Clara in California. He retires this year after 34 years of coaching.

NOTICE OF HEARING VARIANCE FOR SIGN ZONE DISTRICT NO. 4

Notice is hereby given by the Placer County Planning Commission that a public hearing will be held by said Commission on Friday, July 22, 1960 and Friday, August 12, 1960, in the Supervisors' Room, Court House, Auburn California, at the hour of 10:00 a. m. to consider the application of Sunnyside Lodge (Mr. William S. Briner) for a variance to place a sign one foot inside property line, and to extend over property line approximately two and a half feet. Said variance is requested on the basis the existing trees and power poles, plus the highway curve, do not permit visibility for a sign 6' inside property line. Said sign to be located on the following described property:

Lot No. 1, Sunnyside Tract, Lake Tahoe.

At said hearings all persons in favor of the granting of said variance and all persons opposed thereto may be heard.

ZONING HEARING ON DONNER ATTRACTS BIG CROWD TO MEET

An overflow crowd attending the last week's meeting of the Nevada County Planning Commission, forced that body to use the superior court chamber, and even there seats were at a premium.

Present were Weston W. Brunker, John Loser, Carol McGuire, Charles Litton, Cecil Edmonds, Melva Hillier, Mike Runyon and Charles Kitts, members of the board; Verne Jones, consultant, Dick Walker and Harold Cox.

Tac Spoor, county water consultant, spoke briefly and made certain recommendations of legal counsel to represent the county before the Nevada-California Compact Commission on matters pertaining to allotment of waters from Lake Tahoe and Truckee River. This matter was passed on to the board of supervisors.

Three public hearings had been advertised to consider zoning or changes in existing zones.

First was the Donner Lake zoning ordinance. A map of the proposed zones was presented and the plan explained to a large group of Truckee area people present. There was much discussion of the legal size of a lot bordering the lake. Questions asked: does the ownership of property stop at high water line, low water line or no line at all? Members of the board thought this was a legal matter and not under the jurisdiction of the commission.

There was much objection expressed by several homeowners to the presence of horses on Donner Lake property. Dick Walker wants the county to pass suitable ordinances to control the livestock problems in congested areas.

The proposed zoning map of the Donner Lake area was not satisfactory to all present, especially the use of property zoned for R1 that might crowd the public beaches. Hearing was adjourned to meet again on July 25.

Bid Awarded to Repair Damaged Bridge Pillar

A low bid of $10,310 was reecived late last week by the state division of highways for repair of the damaged portion of the interchange bridge on U. S. Highway 40 at the State Sign Route 49 junction about one-half mile east of Truckee.

G. S. Herrington of Auburn submitted the low figure, one of eight bids received, according to officials at the Marysville district office.

Girders of the overcrossing were damaged last winter when hit by an overweight truck.

Work will commence within three weeks after approval of the bid by the attorney general, and is expected to be completed within seven weeks.

During the repair operations it will be necessary to close the eastbound lanes and detour traffic around the bridge. Westbound lanes will be unaffected. Details on the detour will be announced later.

DONNER DOINGS

By VIRGINIA O'BEAR

Donner Lake has never been so beautiful as in the past few weeks and a lot of people must feel the same as everywhere you look you can see new foundations going in for more homes. According to our area sanitarian who also issues building permits, 31 people were issued building permits in the Truckee Donner area, within two days time. You can imagine how our community is growing.

* * *

The firemen of the Donner Lake Volunteer Fire Department met last Thursday night at the firehouse and had a very important drill and instruction on the use of the new pump they recently purchased. Sunday, Dr. Affeldt and Charles O'Bear met to run the pump some more to break it in and I witnessed the whole procedure. It was inspiring to see the machinery which pumps the water so far and with the two new nozzles and the additional new hose, I feel relieved to know that we have much more fire protection now. The firemen have been meeting each week at the firehouse and each man has a certain job so in case of fire there will be no confusion. The firemen have a new secretary now and I am told that Bud McCallen is doing a fine job. Other firemen have joined in and I will give their names at a later date. We can all be proud of our fire department and all of the firemen who are working hard to make it a success.

* * *

Officers and board members of the Ladies Auxiliary of the Donner Lake Volunteer Fire Department met at the home of Mrs. Rex Reid Monday evening to prepare the meeting for this Thursday evening. The meeting and dinner will be held at Brown's Cafe in Truckee and is expected to get under way by 7:30 p. m. Many topics will be discussed concerning the successful barbecue that everyone enjoyed. Everyone will be interested to know that Miss Donner Lake and all of the girls sponsored by the various service clubs in the area have been invited to appear at the regatta to be held at Pyramid Lake on August 14. This will be exciting for the girls as they want an exciting reign for a year and like to appear at functions to help remind people all over the country that we have active service clubs in our area. Any service club who sponsored a girl for our Miss Donner Lake contest is welcome to call on the group to appear at their dinners or social activities for a year. Call Dollie Harris at LUther 7-3729 as she is chaperon of the girls.

* * *

Speaking of Dollie, she and Virgil are getting settled in their new home that they recently purchased at the west end of Donner Lake. It is good to have them as permanent residents as they are both liked in our community as well as their son, Willie. The Harris's had Mr. and Mrs. A. Cabano of Sacramento as their house guests last weekend. The Cabanos have been friends of theirs for years.

* * *

The second and final hearing of the Nevada County Planning Commission will be held on July 25 at the county seat concerning the zoning of Donner Lake. At that time differences will be ironed out and the ordinance forwarded to the board of supervisors for further action. If anyone has anything to say, now is the time to do it so attend this last meeting if you can make it which is held in the evening.

* * *

Members of the Donner Lake Property Onwers Association are sending a letter to Sheriff Wayne Brown in regards to having Donner Lake patroled. Seems as though they are having trouble again this year with boats and waterskiiers coming in too close to swimming areas where the children are. We had similar trouble last year but since we put out a barrel near our float and swimming area, we haven't had any trouble at all. I do hope they get some protection in all the swimming areas at Donner Lake and I do think people are more careful now since they realize the danger through carelessness.

TAHOE ITEMS

Mrs. William Reinhardt of Pasadena wrote that she has opened her place at Meeks Bay for the balance of the summer.

The Frank W. L. James of Inglewood have again returned to their Tahoe Vista address.

DONNER SUMMIT NEWS

By LLOYD W. GAY

FOREST FIRE

Fire control crews from the Big Bend Ranger Station and the Snow Lab responded to a blaze near Fuller Lake on Sunday. The fire, spotted by the Grouse Ridge Lookout, was started by a camper's fire, but was contained to less than an acre in size. The fire danger has been the highest of the season this past week. Care in fire use must be exercised to keep California forests green.

WARTIME SHIPMATE

A wartime shipmate visited Vince Lyddane last week when the Harrison Leggetts of Sausalito spent the week here with their teenage daughter, Janis, and son Bruce, age nine.

VACATION ENDS

Teenager Candy Board of Norden, and her seventh grader sister Bunny have returned home after spending the past month with their grandmother in Salinas.

SIERRA JEEP TRIP

The central Sierra area was crawling with jeeps over the weekend, as 75 jeeps attended a two-day trip sponsored by the Auburn Jeep Club, and 35 jeeps accompanied a tour with the Sacramento Jeep Club. The Auburn Club tour spent Saturday night at Wentworth Springs, and then continued up the Rubicon to Lake Tahoe, and then to a barbecue at the Donner Summit Lodge before returning to Auburn on Sunday night. The Sacramento club spent Saturday night at Sand Ridge Lake north of Castle Pass, and then returned through Castle Creek on Sunday evening. The Sacramento club reported extinguishing a campfire which had been left unattended in the Castle Creek basin. Most of the Sacramento club's jeeps were equipped with short wave radios on the new "Citizen's Band" which enabled the vehicles to keep in contact over a 25-mile range. Organizations like these clubs have proven to be invaluable volunteer auxiliaries to search and rescue operations throughout the western states.

COMMUNITY CLUB BARBECUE

The Community Club board of directors met early early this week to continue plans for the club sponsored barbecue to be held on August 7 at the picnic ground behind the Big Bend Ranger Station. Paul Madden reports that a great deal of work has gone into preparation and improvement of the picnic grounds for this years barbecue. Tickets may be obtained from club officers, or from local businesses.

GIANT BROWN TROUT

The Yuba river yielded two large German Brown trout to fishermen this past weekend, as young Borradori, Junior, from San Luis Obispo, caught a two and a half pounder near the Hampshire Rocks campground. Twelve-year-old Gregg Young caught a four and one-half pounder measuring eighteen inches on a spinner and four pound test line from the Yuba at Kingvale. This large brown is frozen and on display at his father's Yuba Sands Motel at Kingvale.

FAR WEST SKI ASSOCIATION

The meeting of the board of directors of the Far West Ski Association was held this past week at San Simeon, with Director Max Williamson of the Soda Springs Ski Corporation attending. Max was accompanied by his wife Mary on the trip. Sons Tommy and Sherman have also returned home after Tommy spent part of the summer with his uncle in San Carlos, and Sherman attended the Mt. Herman Church Camp.

SERVICE CANCELLED

The 8 a. m. church service held each Sunday in the Soda Springs Hotel by Reverend George Symonds, pastor of the Methodist Church of the Mountains in Truckee, has been discontinued for the remainder of the summer because of the increased program of the church in Truckee. An early morning service is held at 9 a. m. in Truckee, followed by Sunday school at 10 a. m., and the regular service at 11 o'clock.

FORESTRY GROUP

The California State Forestry Board visited the central Sierra region on Friday. The group observed forest recreation development in the Tahoe area, and after luncheon at the Donner Summit Lodge, visited the Snow Laboratory.

August 2 Hearing Set For Tahoe Ordinance

AUBURN — Placer supervisors have set August 2 for public hearing on the Planning Commission's ordinance which proposes to regulate temporary amusement types of business and activities in the Lake Tahoe area.

As proposed and approved by the planners, the ordinance would amend an existing ordinance to cover such activities as skating rinks, pony rides, merry-go-rounds, miniature golf, trampoline centers, and midget racing tracks, to protect nearby residents, although the activities are conducted in a commercial zone.

They also instructed District Attorney Al B. Broyer to check the wording proposed to ascertain if the document as drawn now will be legal it passed.

with the two concessionaires, is planning to keep the park available. DeTurk said rooms in the park probably will be rented for $8 per night for a double.

STATE EXPENSE

Newsom told Capitol News Service it is his hope to maintain a resort and charge reasonable prices. He and Pelosi intend to operate a large cafeteria.

Even with the actual operation of the resort turned over to private enterprise, the state still is not without its problems in the valley. Under terms of the lease, the state will assume responsibility for operatoin of the refrigeration plant, and for the furnishing of water and sewage facilities to the entire valley. Costs of water and sewage will be pro-rated to all users, as is done by all utility operators.

The contract, however, calls for expenditure during the forthcoming year of at least $150,000 by the concessionaires for improvements to the resort. DeTurk and DeWitt Nelson, directors of natural resources, said they expect the actual investment will be several times that sum.

SACRAMENTO—(CNS) — Secretary of State Frank M. Jordan announced the firm which has been given a 27-year concession contract for operation of state park facilities at Squaw Valley has filed articles of incorporation with his office, to be capitalized at $500,000 in $1,000 par shares.

The firm, Squaw Valley Improvement Corporation, listed its directors as William A. Newsom, 2050 Jefferson St., Ronald Pelosi, 385 Magellan Ave., and Albert Leonardini, 74 Sunview Dr., all of San Francisco.

COMPETITION RAPPED AS HIGHWAY HAZARD

The competitive spirit of most Americans, while a great asset on the athletic field, is a serious hazard to highway safety, says Lt. O. P. Ledford of the California Highway Patrol.

"Competition on the highway takes the form of excessive speed, grabbing instead of yielding the right of way, and cutting in and out of traffic," Ledford declared "All of these actions are unlawful, unsportsmanlike and unsafe, and each accounts for a great number of traffic accidents in this area."

Noting that traffic is "largely a personal matter," the commander of the patrol's Truckee Substation added: "We will have fewer accidents and injure and kill fewer people if we substitute courtesy for competition and really try to give the other fellow a break."

NOTARY

SACRAMENTO—(CNS) — Secretary of State Frank M. Jordan today announced issuance of a notary public commission to Floyd D. Smith, Jr., P. O. Box 643, Tahoe City.

The cardinal sin of our day is the widespread practice, even among professing Christian people, of relegating God to a secondary place in life. The church of today is weak and unable to meet the tremendous challenge of the hour because multitudes who name the Name of Christ have put God on the periphery rather than in the center of their thinking. "Centering in or Counteracting God" will be the thought in the pastor's sermon next Lord's Day.

How scientific prayer leads to a clearer understanding of Truth will be brought out at Christian Science services Sunday.
The Lesson-Sermon on "Truth" will include the following passages from the Bible (Luke 11: 11,13): "If a son shall ask bread of any of you that is a father, will he give him a stone? or if he ask a fish, will he for a fish give him a serpent? . . . If ye then, being evil, know how to give good gifts unto your children: how much more shall your heavenly Father give the Holy Spirit to them that ask him?"
The importance of prayer is also emphasized in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (11: 27-31): "Prayer cannot change the unalterable Truth, nor can prayer alone give us an understanding of Truth; but prayer, coupled with a fervent habitual desire to know and do the will of God, will bring us into all Truth."

AUBURN—A four man charter committee, part of the 15 freeholders working toward drafting a proposed county charter, is studying the possibility of redistricting the five supervisorial districts.

He said the committe may have a recommendation at the freeholder's next meeting at 8 p. m. July 26.

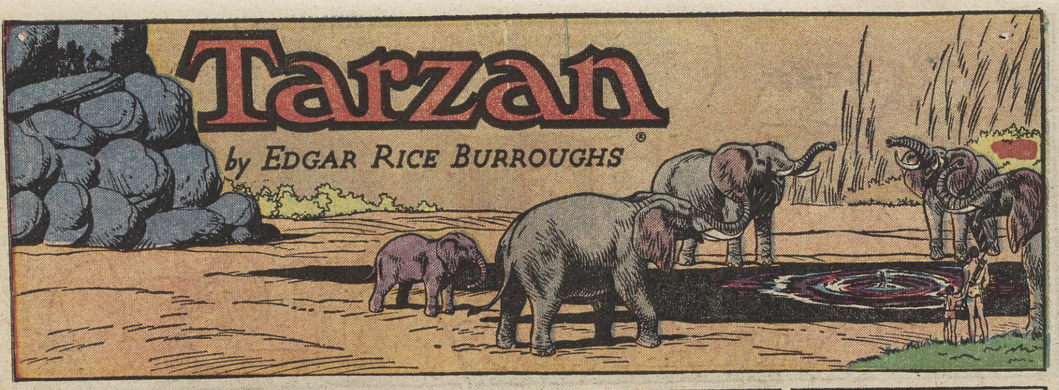
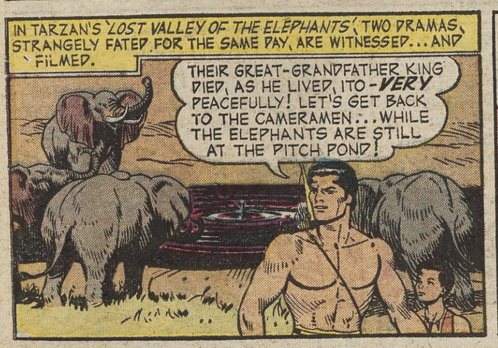
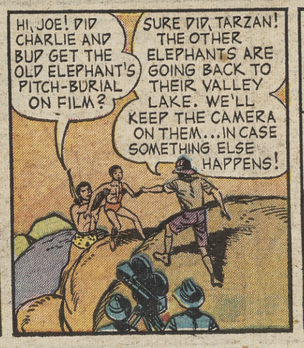
Tarzan

by EDGAR RICE BURROUGHS

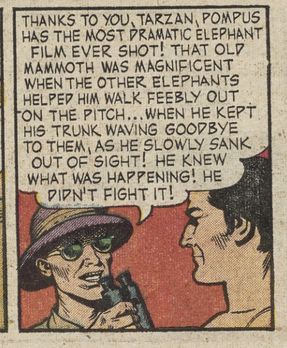




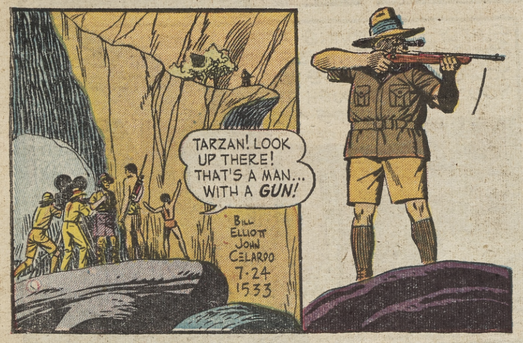
IN TARZAN'S LOST VALLEY OF THE ELEPHANTS, TWO DRAMAS, STRANGELY FATED FOR THE SAME DAY, ARE WITNESSED... AND FILMED.
THEIR GREAT-GRANDFATHER KING DIED, AS HE LIVED, TO-VERY PEACEFULLY! LET'S GET BACK TO THE CAMERAMEN... WHILE THE ELEPHANTS ARE STILL AT THE PITCH POND!

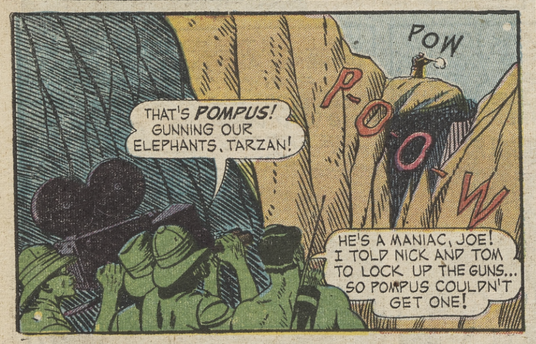


HI, JOE! DID CHARLIE AND BUD GET THE OLD ELEPHANT'S PITCH-BURIAL ON FILM?
SURE DID, TARZAN! THE OTHER ELEPHANTS ARE GOING BACK TO THEIR VALLEY LAKE. WE'LL KEEP THE CAMERA ON THEM... IN CASE SOMETHING ELSE HAPPENS!



THANKS TO YOU, TARZAN, POMPUS HAS THE MOST DRAMATIC ELEPHANT FILM EVER SHOT! THAT OLD MAMMOTH WAS MAGNIFICENT WHEN THE OTHER ELEPHANTS HELPED HIM WALK FEEBLY OUT ON THE PITCH... WHEN HE KEPT HIS TRUNK WAVING GOODBYE TO THEM, AS HE SLOWLY SANK OUT OF SIGHT! HE KNEW WHAT WAS HAPPENING! HE DIDN'T FIGHT IT!





POW
THAT'S POMPUS! GUNNING OUR ELEPHANTS, TARZAN!
HE'S A MANIAC, JOE! I TOLD NICK AND TOM TO LOCK UP THE GUNS... SO POMPUS COULDN'T GET ONE!

THE ONLY TROUBLE IS THE POSSIBILITY OF GETTING LOST! BUT THERE IS **ONE** WAY OF FINDING YOUR WAY BACK THROUGH A DENSE FOREST LIKE THIS!

YEAH? HOW DO YOU DO THAT?

RJA

SIMPLY BY CARVING A CROSS ON THE TREES WITH YOUR SCOUT KNIFE WHILE YOU HIKE THROUGH THE WOODS!

YES, INDEED! LOOK AT THE CROSS ON THAT PINE TREE, BOYS!

GEE! IT'S A BIG, DEEP ONE!

I CARVED THAT MARK IN THAT TREE YEARS AGO WHEN I FIRST CAME HERE, AND I'VE MARKED MANY OTHER TREES UP HERE SINCE!

OH, SO YOU'RE THE GUY!

WELL, I'M THE FOREST RANGER UP HERE, AND I'VE BEEN LOOKING FOR YOU! IT'S GONNA COST YOU $100 FOR MARKING AND DEFACING THE TREES!
